POLICE JOTTINGS.

Crap Shooters Are Treated to a Surprise.

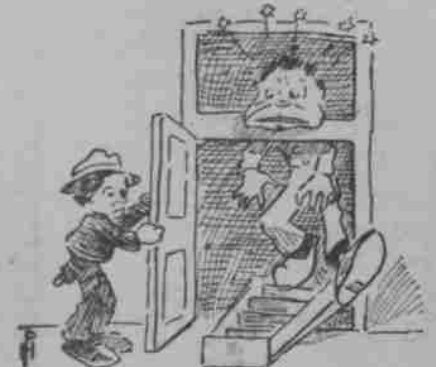

Game Is Raided and Arrests Are Made.

GAME IS CALLED OFF.

Officers Decide Not to Play the Asylum.

A Rabbit Chase With Exciting Consequences.

Last night the gendarmes having been informed that some negroes were in a room over A. Samuels' clothing store, where they were shooting craps during the closed season, contrary, etc., dropped down on that location in a bunch. The entrance of the police was quite sudden, and some of the gamblers were caught with the goods on them. The officers used the transom route to gain entrance to the room, Little Willie Reel, the bold boy detective, was the first to

REED OPENED THE DOOR.

break in. He placed a step ladder against the door, and dived through the transom into the room. Then he obligingly opened the door for the other

officers--just as Asher had mounted the ladder to follow him. When the ladder went down Asher followed, after hanging for a brief instant by his chin, and it required a diagram to separate him from the ladder. Those who rose hastily and picked up the bones and small change, seven in all, were surrounded and chased down to the keep. They gave their names as J. W. Ewing, William Johnson, Jess Thomas, Oscar Alexander, Oliver Richardson, Claude McCain and Ben Frazier. When searched at the jail it was discovered that the game was not one of the kind where fortunes change hands. The cash found on them individually ranged from nothing at all to \$1.85. They will have a hearing tomorrow.

It is alleged by certain police officers that Officers C. C. Smith and Woodward attempted to arrest a jack rabbit last night for fast driving, disorderly conduct, malicious trespass or some-

THE ANIMAL AGREED TO LEAVE TOWN.

thing of that kind, but were fooled. The animal had his rabbit's foot with him, and escaped. According to the story, the officers accosted the bun at the corner of Fourth and Kansas avenue, and chased him about four miles before he finally agreed to leave town.

The game with the Asylum has been called off by Manager Miller of the alleged police nine. As an excuse, he says some of the star players have got to attend four o'clock court this afternoon, and Judge Hamilton won't adjourn to accommodate them. Miller announced today that there won't be any police nine, but that a "city nine" will be established, which will contain some good players, among them H. Ward Page, license collector, and some of the firemen.

Judge Hamilton stayed by the officer

of the law in the case of Chas. Kortz, the U. P. watchman who was arrested Saturday night for interfering with an officer. The case came up in police court last evening, and Riley, who made the arrest, told how it happened. It seems that Riley had arrested a bunch of huns, and was holding them at the U. P. depot pending the arrival of the dark Maria, when Mr. Kortz, watchman of the U. P. yards, arrived and ordered Riley to release the victims, as a policeman had no right to make a pinch on railroad property without HIS consent. Then he continued in the same strain, and told Riley a lot about the Topeka police force which would have tickled the ear of the "late" Rev. Dr. McFarland. Then he exposed to the weather a star bearing the sign of a deputy, which he calculated would make the officer drop dead. But Riley, instead of fainting, announced that his star was the largest and that Mr. Kortz would oblige him greatly by adding himself to the bunch of hoboes who were awaiting transportation. After hearing the facts in the case Judge Hamilton fined Mr. Kortz \$10 for interfering with an officer. Kortz appealed the case.

NEW THEATER SIGNS.

Front of the Crawford Will Blaze With Electricity.

Workmen are putting up two large electric signs in front of the Crawford theater. The signs are each 12 feet 2 inches by 7 feet. The two inches are put on to keep away bad luck. A font of electric letters belongs to each sign, and with the letters the name of the attraction at the theater will be announced each night by electricity.

Manager Crawford is going in heavy for electric signs for next season. At the new St. Louis theater has an electric sign in the form of a hand seven feet long.

JUDGE HAZEN IS AWAY.

He and County Attorney Are Hunting Frogs.

The legal and prosecuting machinery of Shawnee county is at a standstill. The district court room is empty. Judge Hazen and County Attorney Otis Hunsate have gone to Rossville after bullfrogs. They have promised to supply all the county officers with enough frog hams for their Sunday dinners. Bullfrogs have gone to Rossville off his tomato vines in Pleasant Valley and the members of the regular panel of jurors are mostly fanning.

FOUR MORE FOR MACHEN

Federal Grand Jury Continues to Grind Out Indictments.

Washington, July 31--The federal grand jury here which has been considering cases arising from the postal investigation has agreed upon four additional indictments for conspiracy against August W. Machen, the former general superintendent of the free delivery service of the postoffice department, and an indictment of another party, a private individual here, in connection with a postal contract for presenting a false claim to the government. The four new indictments of Machen are based on separate and distinct transactions and wholly apart from the indictments reported against him several weeks ago by the grand jury for conspiracy. Machen is now in this city under bond. The fifth indictment relates to the transaction of a man supposed to be in the west, who will be placed under arrest as soon as the officers can find him.

Greek Constitution Needs Revision.

Athens, July 31--The recently started movement for the revision of the Greek constitution is stirring many adherents of all classes. The revisionist societies have sent a manifesto to the electors throughout the country in the form of a petition to the king. This document, which is being extensively signed, gives a sombre picture of the internal conditions of Greece, characterizes the political parties as iniquitous, urges a number of necessary reforms and declares that a revision of the constitution is indispensable to the well-being of the country.

Snubs Modern Maccabees.

Milwaukee, Wis., July 31--The insurance commissioner today refused the application of the Modern Maccabees of Ann Arbor, Mich., to do business in this state. One objection was that the order has not set aside an emergency fund to the amount of one death or disability assessment and another that its name was too much like the Lady Maccabees of the World of Port Huron, Mich., now doing business here.

Stole Trousers and Cash.

New Castle, Del., July 31--Manager Robert W. Carberry of the George Moore farm, near this city, visited friends in Wilmington last night. While returning to the farm shortly after midnight he was held up by three men, one of whom knocked him senseless with a

sandbag. When he came to his senses \$72 was missing, together with his coat, trousers, hat and one shoe.

BURTON AND TILLMAN.

How John Waters Managed Their Debate.

John Waters has returned from a trip east. While riding between Chicago and Moline, Ill., he was on the same train with Senator Burton and Senator Tillman, who are touring the country and debating on the negro problem. Tillman and Burton were having a private discussion of the question. Waters and other passengers invited the two senators to the smoker to debate. Both accepted and the debate started with Waters as referee. Tillman and Burton became interested and gave as much zest to the impromptu debate as they would from a platform. When the debate was closed Waters suggested that the people in the smoker vote on the question of which senator won.

The ballot stood 8 to 8. Waters suggested that the colored porter be called to cast the deciding vote.

"You may vote him," said Tillman with a smile, "but you can't count him. I don't want to get into that habit."

HER AFFECTIONS STOLEN.

Now John Hillman Wants a Divorce from Wife.

John Hillman has asked the district court when the court gets back from a frog hunt, to divorce him from Cora Hillman.

Mr. Hillman claims in his petition that one Thomas Jones stole the affections of his wife. He says he loved her and was good to her but she finally deserted him and he does not know where to find her.

PROGRESS.

The Continental Clothing Company is rapidly advancing to be one of the leading firms in the city. For the past five weeks workmen have been busy remodeling their entire front. The old front has been entirely replaced by new, modern, up-to-date, all plate glass large show windows.

Atchison and Return \$2 via Santa Fe Account quarter centennial "Atchison Globe". Tickets on sale Sunday, Aug. 2. Good returning same day.

JONES TO RUN IT.

He Will Have Charge of Dairy Products at Fair.

The Kansas State Dairy association, acting in conjunction with the Kansas State Exposition company, has placed all dairy exhibits in the hands of Mr. A. E. Jones of Topeka, superintendent dairy department. Last year no showing was made in this line, but the managers are confident of a generous display this year of both creamery and farm butter, and also a full showing of Kansas cheese.

Liberal cash prizes are offered in the regular dairy classification, as well as a number of special cash premiums, which should induce butter and cheese makers to contribute nothing but the best, such as will reflect great credit on the state.

The dairy exhibit will have commodious quarters in the new merchants and manufacturers' building with such refrigeration as will preserve all dairy goods in a perfect and natural state. The awards will be made under the national association rules with the following scale of points:

Butter--Flavor 45, grain 20, color 15, salting 10. Total, 100.
Cheese--Flavor 30, quality 20, texture 20, color 10, salting 10. Total, 100.

An appeal is made to all dairymen in Kansas to make as large and fine display this year as possible, and thus gain some idea of what will need to be done next year when our dairy products will come into competition with all the great dairy states at the World's fair in St. Louis.

The full premium list will be sent out soon. For information, write to C. H. Samson, secretary Kansas State Exposition company, or A. E. Jones, superintendent Dairy Department, Topeka.

DUMONT'S TESTIMONIAL.

He Is Presented With One by the Secretary of War.

Paris, July 31--The Velo this morning says that Santos Dumont, after the successful demonstration with his dirigible balloon at the review on July 14, offered to place his balloon at the disposal of France in case of war. Subsequently he received a letter from General Andre, the secretary of war, accepting the offer. The letter was as follows:

"At the review I noticed and admired the facility with which your balloon steered. It was impossible not to observe the progress made in aerostatics, which seems to have attained a practical application, especially from a military point of view. As I think the bal-
